NOTICE TO U. S. MAIL CONTRACTORS AND THE PUBLIC.

AUDITOR'S OFFICE, POST OFFICE DEPARTMENT,

November 1, 1853.

TT HAS BEENLONG THE PRACTICE of this office to pay the drafts drawn and nego-tiated by contractors for carrying the United States mails, for the amounts, respectively, of their quarterly pay. It was established to accommodate the contractors, and meet their necessities, in advance of the regular and slewer process of paying by the drafts or warrants of the department and was intended only to apply to one draft per route from each contractor for the whole amount (deducting fines, collections, &c.,) of his quarterly nisunderstood, as to be supposed to allow any number of drafts, and for any amount, not exceed ing in the aggregate, the contract pay for the quarter. A privilege conceded for accommodation (for it was never anything more) has thus been made to embarrass materially the business of this office, forced upon it the settlement of the private ac-counts of contractors, and thrown upon the exchanges of the country, with a quasi sanction of this office, a species of paper currency unauthor-

It not unfrequently occurs, too, that this office is exposed to great and unnecessary risk in deter-mining upon the genuineness of the signatures to the assignments or endorsements of the various persons through whose hands these drafts are made to pass before their presentation.

It is therefore deemed proper to give this public notice to contractors, and all concerned, that from and after the 1st day of January, 1854, but one draft for the pay upon each route per quarter will be payed, or filed for payment, in this office. This draft should state upon its face, that it is the only one for the quarter and the route (both to be speci-fied) on which it is drawn; and the signature thereto should be attested by the postmaster at the place where it may be drawn, and one other witness; and each assignmen: thereof should be attested by two

The saving effected by the use of it will be found fully 25 per cent. in ev-ery person's gas bill. It can be so adjusted as to supply the gas at any desired pressure less than that of the street, and when once adjusted, the Regulator will continue to supply the gas at that Regulator will continue to supply the gas at that pressure uniformly, without requiring further care or attention, and independent of all the fluctuations of the street pressure. An additional advantage obtained by this Regulator is a light of a more agreeable quality, in place of the binish white color of the ordinary gas light, occasioned by the high pressure at which the gas is consumed. As an evidence of its practical utility, it is now in operation in some of the principal notels and large stores in New York city, who all bear favorable testimony to its value. ENRY's INVIGORATING CORDIAL,
Purely Vegetable in its composition.—This
invaluable Cordial is extracted from Herbs and

or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a ronic medicine is required, it will be found equal not superior to any compound ever used. PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once import ant, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion-uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights

of any now prosecuting the same great work.

Although mainly deveted to the discussion of such political questions, as they arise, which affecthe welfare of North Carolina, whether relating to the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which our commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, dressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall al-ways command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina.

The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be susto state the particular views which are to be sustained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their primary assemblies, and which has been so successfully introduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing.

will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those whe, by sufferance, have tolerated ts temporary usurpation.

2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good sld State rights platform of '85, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance,

or any other measure inconsistent with the right of the States. 3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy. 4th. They will advocate all such measures of in-ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we be lieve it should be at once met and settled. The unjust and unequal legislation of Congress, in relieve it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress, to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President we shall consort

6th. Approving of the sentiments of the inaugu-ral of the President, we shall oppose the acquisi-tion of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the nation

Edited by T. Baldwin and J. Thomas, M. D. With a new and superb map of the United States, engraved on steel.

The publishers take pleasure in announcing the completion of this, the most elaborate, comprehensive, and perfect Gazetteer of the United States that has ever issued from the press. In its preparation no considerations of expense or labor have been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its detail. Nor have the successive issues of other Gazetteers, hurried through the press to claim the market, tempted the publishers to offer their back before all the ample census (of 1850) and other material in the hands of the editors were fully digested and accu-

But so vast was the amount of matter, accumulated through the personal labors of the editors and their assistants, as well as through the active efforts of several thousand corrèspondents in all parts of the United States, the work has swelled to near 1,300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in mean in

We therefore offer our Gazetteer confidently, as the only complete and thoroughly reliable Gazetteer of the United States yet published.

As above stated, the work is now ready, and will be published in December, 1853. Price to subscribers, \$3 50; to non-subscribers, \$4.
